

CENTENNIAL COMMISSION (1947) [180]

DIVISION CORRESPONDENCE AND SUBJECT FILES, 1944-1947.

3 cu. ft.

DESCRIPTION: Correspondence of the Division on Arts, Division on Beautification, and Division on Sports of the Centennial Commission make up the majority of this series, however the series includes numerous subject files, including those of the Committee on History. The records were used in the general administration and management of the divisions, as well as in planning various events, programs, and in compiling publications.

Records of the Division on Arts includes correspondence to and from individuals and subcommittees (drama, music, pageant, parade, and pioneer dancing), invitations, announcements, thank you letters, an agenda of centennial events, progress reports, historical notes, and reference materials. Major programs or events include the planning conference, publication of the source book and supplement on pioneer dancing, a play contest, and the musical drama "Promised Valley." In some instances, the contents of an individual folder are listed numerically. The log includes a number, name of recipient or sender, brief description, and date. Included with the correspondence and recommendations in the folder labeled "Talent" are promotional brochures, flyers, programs, and news articles or reviews from amateur and professional performers, managers, agents and vendors throughout the United States regarding the possibility of participation in centennial activities.

Among the Division on Beautification records are incoming and outgoing correspondence and subject files related to publicity (magazine releases, newspaper releases, radio, and speakers bureau), production of motion pictures and slide presentations, proclamations and resolutions, beautification contests, preparations for the beautification conference, and subcommittee correspondence (executive beautification, general beautification, landscaping, parks and recreation, and planning and zoning). A sampling of correspondence with localities is included.

Historical background information compiled to provide a basic understanding of the events surrounding the settlement of Utah by the Mormon pioneers and the history of the state was maintained by the Historical Committee. Excerpts from various books and magazines relating to Utah historical figures and events were filed alphabetically by subject. The source of the published work appears at the top of each typewritten page.

General administrative messages to and from the sports manager as well as files relating to various sporting events make up the correspondence files for the Division on Sports. Included are letters, telegrams, post cards, memoranda, requisitions for office supplies, agreements, financial and budget figures, schedules, mailing and contact lists, reports, and similar reference materials.

ARRANGEMENT: The records are arranged alphabetically by division, thereunder alphabetically by subject. Contents of individual file folders are arranged chronologically.

RESEARCH NOTE: Maps (blue prints and sketches) showing the parade route, "Blossom Time" set design drawings, the layout of the painting exhibit area, and a color illustration of the gowns designed for the Centennial Queen and her attendants, as well as fabric samples, have been removed to oversize storage. This series includes three black and white photographs of the automobile used by John Cobb to set speed records. Another photograph shows L. Deming Tilton and Carl Feiss together. Tilton, a planning consultant from San Francisco, and Feiss, from the University of Denver School of Architecture and Planning, attended the beautification conference.

RELATED RECORDS: Correspondence and subject files maintained by the Centennial Commission are included in the CORRESPONDENCE AND SUBJECT FILES (1939-1948), series 19316. Activities of the divisions are further documented in MINUTES (1945-1947), series 19314, and REPORTS (1946-1947), series 19315.

CUSTODY HISTORY: Records of the Centennial Commission originally were deposited with the Utah Historical Society, which in 1949 was designated by Governor J. Bracken Lee as the official repository for the records of the commission. The newly independent Utah State Archives retained custody of the records following its removal from the Historical Society in 1969.

PROCESSING NOTE: Archival processing of these records was completed in January 2000 by W. Glen Fairclough, Jr.

GAPS IN THE SERIES: There is no correspondence or subject files from the Division on the Exposition, the Division on Finance and Accounts, the Division of Intra-State Planning, or

the Division on Publicity.
